CONNECTION CHARGE

If you already have an active ADSL service, you may be eligible for a "fast churn". In this case we will be able to transfer your service to us quicker. If your current supplier does not participate in the fast churn process, then we will need to activate your service as a new connection. We will charge you a fast churn fee of \$44. If your premises does not or has never had an ADSL connection we will not charge you a connection fee.

Other Information

AVAILABILITY

ADSL2+ is not available to customers in all areas. In addition, it is important to note that "Fastest" Business Broadband will deliver speeds of up to 20Mbps/1Mbps at selected exchanges where ADSL2+ is available and up to 8Mbps/384kbps in all remaining ADSL enabled exchanges.

BROADBAND SPEEDS

- Actual speeds you will receive will vary due to a number of factors such as your distance from the exchange, the network connecting the exchange, your equipment, software and internet traffic.
- Download speeds on devices connected via a Wi-Fi modem or network extender may be slower than on devices connected by a fixed Ethernet cable.

CONNECTION TIME FRAMES

Once we've accepted your application, we'll try to connect your business ADSL service on the date you ask for, but this might not always be possible.

If there has been a previous working business ADSL service at your premises and we can reconnect it without having to visit your premises, the local telephone exchange or anywhere in between, then we aim to connect the service within five working days of your request.

BILLING

We will bill you in advance for the minimum monthly charge and features and in arrears for data. Your first bill will include charges for part of the month from when you took up your plan until the end of that billing cycle, as well as the minimum monthly charge in advance for the next billing cycle.
